A Nonsensical Notion.
Some folks actually believe that they can cure whooping cough through their stomachs. It is absurd on its face—absurd on the face of the man who believes so, because his disease starts right there. Says there till he uses Tetterine. It is the only safe and certain cure for Tetterine, Ringworm, Eczema and other itchy irritations. Good for Dandruff, too. Profits 300 to 500 Per Cent.
The sewing machine one of the greatest blessings in the way of machines ever offered the public, sold for years at sixty dollars in the United States. The same machine, however, to be shipped to a foreign land, could be purchased below twenty dollars. After the patents run out the price fell rapidly until now sewing machines are sold for twenty-five dollars and often below twenty dollars. The sewing machine manufacturers became immensely rich, from their profits of several hundred per cent. It has been estimated that typewriting machines cost less than twenty dollars to build, while they sell for from fifty dollars to one hundred dollars each.

It is generally understood that an agreement exists whereby these high prices are maintained. Business men are compelled to pay from three hundred to five hundred per cent. profit or go without the machines.

Are there any other machines which yield such profits as the sewing machine did for years, and the typewriting machine has and does, except it be the bicycle?

Corean Paper.
The statement is made by a writer in the Apotheker Zeitung that a remarkable kind of paper is produced in Corea entirely by manual labor and without the use of machinery. Its quality exceeds that of the very best made in China or Japan. The raw material used for this paper is obtained from the bark of Broussonetia papyrifera, which is collected in the spring and beaten in water containing a large admixture of wood ashes, until reduced to thick pulp; this is taken in large ladles and spread upon frames of bamboo, and in this way formed into thin sheets. Another kind of paper is produced from old scraps trodden into pulp, much in the same way that grape juice is expressed in some countries—a process of pulping which, though slow, has the advantage of not breaking the fiber so much as when machinery is used; then, after the pulp has been made into paper, the sheets are piled up to the height of six feet and cut into pieces, to be again subjected to the feet stamping—at the same time the roots and seeds of a plant called "tackpoul" are added, the soluble parts of which are supposed to give tenacity and toughness to the paper.

Easily Suited After All.
A stage manager well known in the small towns for his ambitious demands in regard to scenery and stage effects, yet who was equally satisfied with the most meager provision, said one morning to the lessee of a wooden booth: "In the first act I shall require a regiment of soldiers on the right, a posse of policemen on the left and a crowd of peasants on the bridges in the center. Now, how many supers have you?" "Two, sir." To which he composedly replied: "That will do beautifully."

Sharply Reproved.
Every gossip needs a mentor, and once in a while the need is supplied. A woman well known for the freedom of her tongue remarked with an air of satisfaction: "I always try to make as many friends as possible." "Of course," said Miss Cayenne; "if one had no friends, how could one discuss their private affairs?"—Washington Star.

You know as well as we that the John P. Lovell Arms Co. is the largest and most reliable Col. Ben S. Lovell, known all over the world, is treasurer and acting head has made and for a half century maintained its great reputation by the manufacture of sterling goods. It is still the world's headquarters for guns, rifles and revolvers, fishing tackle, skates and sporting goods of every description and is no less the headquarters for the highest grade bicycles. The company was the moving spirit in forming the combination of the four leading manufacturers in this country, the "Big Four," so-called, to hold up the grade and hold down the price of wheels. Those who were handling the thousand and one wheels the manufacturers were ashamed to "kick." The profit on the cheap wheels was very large. But they kicked to no purpose, and today a cyclist may ride a first-class guaranteed wheel at the price it had formerly cost to ride one made like the famous razors, to sell. For this boon the public owes the Lovell Arms Co. thanks. A catalogue of our regular bicycle stock and a special list of wheels issued by the Big Four Combination will be mailed free on application to the John P. Lovell Arms Co., 131 Broad street, Boston, Mass.

THE NEWS EPITOMIZED.
Washington Items.
A son of General Phil Sheridan has been appointed Cadet-at-Large to West Point.
President McKinley nominated Irving B. Dudley, of California, to be Minister to Peru.
Judge-Advocate-General Lieber of the Army recommended to Secretary Alger that the plans for the proposed North River bridge, New York City, be approved.
The Senate worked rapidly on the Tariff bill, disposing of the wool, silk and tobacco schedules, and so completing its first survey of the bill. The next thing in order will be to go over the bill a second time, taking up matters that were passed on going over the bill the first time.
The Senate completed the schedules of the tariff relating to raw wool and advanced into the paragraphs on manufactured woolen goods. Mr. Hear spoke of Mr. Bryan's position on the Tariff, and brought Senators Mantle, Allen and Stewart to the latter's defense.
Senator Teller warned the Republicans against dragging outside political issues into the Tariff debate.
Senator Allen, of Nebraska; Congressman Knowles, of South Dakota, and W. J. Bryan deny the statement of Professor L. C. Bateman, of Maine, to the effect that Mr. Bryan's gift of \$1500 to the Populist National Committee was conditional upon the understanding that no action against fusion should be taken by the Populist National Convention.

Japan's protest against the annexation of Korea is considered in a more serious light than was at first made known by the Senate Foreign Relations Committee. It is accepted as almost an ultimatum that the treaty must not be perfected.
There was an exciting debate in the Senate on the wool schedule, a number of Republicans, including Foraker, of Ohio, objecting to the rates proposed by the Finance Committee. Mr. Foraker charged the committee with violating an agreement in respect to certain rates. It was found necessary to defer consideration of a portion of the schedule.
The President sent to the Senate the nomination of John Goodnow, of Minnesota, to be Consul-General at Shanghai, China.
The Senate adopted the joint resolution, passed by the House, appropriating \$100,000 for repairs of Dry Dock No. 3 of the Brooklyn Navy Yard.
The trials of the alleged recusant sugar witnesses were finished with the acquittal of John W. Macartney by order of Judge Bradley.
The Senate fixed the price of armor plate for the new battle ships at \$425 a ton.

Triumphs in Surgery.
Cleansing of the wound itself was almost a surgical heresy a few years ago. Fouled bandages were the rule, and the thicker and more abundant the discharges the more "laudable" they were considered to be. Hence in the older works on surgery the so-called "laudable" pus was as much a sign of safety as it is now of danger. Cleanliness of instruments, now a prime consideration, was then entirely ignored. Oftentimes the same instruments would be used at different times upon the dead as well as the living body, and a celebrated operator of that day was accustomed to hold his knife between his teeth when his hands were temporarily employed in the wound. If a cut healed rapidly it was a rarity sufficiently great to court fact. The former result was rather an accident of cleanliness than the deliberate acknowledgment of what should have been the rule. Consequently the most careful surgeons—those who possessed instinctive habits of neatness and cleanliness—were the most successful.

The Philadelphia Record thinks "conductors on smoking cars should help ladies to alight." Certainly, when they "go out."

A VETERAN'S WIFE.
Affected With Heart Disease and Given Up to Die—Saved in a Wonderful Way.
From the Press, Utica, N. Y.
There is no one better known or respected in the village of Brookfield, Madison Co., New York, than Mrs. John Fisk, the wife of an old resident and veteran of the war of the Rebellion. In April of this year, Mrs. Fisk lay at death's door from neuralgia and heart disease, the family physician having recommended her to settle all her worldly affairs, as she was liable to be taken at any minute, and inquiring friends expected each visit to hear that she had passed away. But Mrs. Fisk, to the surprise of her neighbors and physicians, suddenly began to mend, and now she is as strong and healthy a woman of her advanced age (78 years) as can be found, and really does not appear nearly as old as she is. The following is her own story of how she was cured.
"I consider it is my duty to myself and the community to tell of my extraordinary recovery from what was thought by my physicians, my husband and friends to be a fatal illness. I had long been suffering from neuralgia in its worst form, enduring agonies that only those who have undergone such torments know, until my heart became so affected, functionally and organically, that the doctor said I was liable at any time to pass away. He had done all in his power for me, and I thank him much for his kindness and attention, and believe him to be a good, faithful physician. I was not disposed to die, however, if I could help it, and he having done all he could, I felt at liberty to use any other means that I could find a chance of, and determined to try a remedy that had been recommended by a friend who had been at death's door from rheumatism and heart disease, but who now is in good health.
"Whatever doubt I may have had as to this remedy's efficacy in my peculiar disease, to that from which he had suffered, was dispelled on reading in the Press of a case identical with my own being cured, with the name and address of the person who had been so benefited. So my husband who now was anxious that I should at once take the treatment, purchased for me a box of Dr. Williams' Pink Pills. I took them according to directions, and within a very short time the pains began to disappear, my heart's actions became normal, and four weeks ago I ceased taking them, as I am entirely cured, and able to do my household work as well as when I was a young woman.
"I had always, until I tried Dr. Williams' Pink Pills, looked upon proprietary medicines, but now my ideas have undergone a wonderful change in that direction, for under God's all-wise Providence, 'Pink Pills' have renovated me, and apparently given me a new lease of life.
"This is no secret in this locality, and I hope this certificate may be the means of other sufferers in distant places securing the same benefits that I have received.
"CLARINDA FISK."
Pink Pills are sold in boxes (never in loose form) by the dozen or hundred, and the public are cautioned against numerous imitations sold in this shape, as 50 cents a box or six boxes for \$2.50, and may be had of all druggists, or direct by mail from Dr. Williams' Medicine Company.

A FREAK PEAR.
Nature Was Evidently in a Jocular Mood When She Molded It.
This is about the most curious specimen of its kind ever noted. It is a pretty hard pear, with an amusing "portrait" on one side. The lady who photographed it declared that the pear was absolutely untouched by hand.
A gentleman's dress box has apparently been placed beneath the pear, doubtless to accentuate PEAR with HUMAN the expression of COUNTENANCE. Slight complacency that marks its broad "face." Forehead, eyes, nose, cheeks, mouth and chin are all defined in a really marvellous manner.

Honors for a Horse.
The famous charger, Copenhagen, on which the Duke of Wellington was mounted at the battle of Waterloo, died in 1836, and was buried with military honors. This world-renowned horse was the grandson of the famous race horse Eclipse, was bred by Field Marshal Lord Grosvenor, and purchased by the Duke for \$2,000 from the Marquis of Londonderry. His color was a dark chestnut, and he stood 15 hands high. He spent the last years of his life in a paddock at Stratfield-sayre, where he died in 1836, the grave being under the shadow of a Turkish oak. A memorial stone to Crimean Bob, a fine horse belonging to the Eloveth Hussars, is erected at the Cahir Barracks, Tipperary, Ireland. The animal went through the Crimean war, and died at the age of 34.

The Conditions.
He—Weally, I don't wish to boast, but I'm suah my family is quite awis-toewatic.
She—Yes; under certain conditions it would be above criticism.
He—Aw! How, may I ask?
She—Well, if you had been born an orphan and died in infancy, say.
He—Aw!—Brooklyn Life.

Sweetness and Light.
Put a pill in the pulpit if you want practical preaching for the physical man; then put the pill in the pillory if it does not practise what it preaches. There's a whole gospel in Ayer's Sugar Coated Pills; a "gospel of sweetness and light." People used to value their physis, as they did their religion,—by its bitterness. The more bitter the dose the better the doctor. We've got over that. We take "sugar in ours"—gospel or physis—now-a-days. It's possible to please and to purge at the same time. There may be power in a pleasant pill. That is the gospel of
